### **Ceramic Sculpture Master Workshop (Intermediate & Advanced Levels)**

This advanced-level program is designed for participants who use ceramic sculpture as a means of artistic expression. Focusing on form, balance, and surface language, the workshop encourages the development of original approaches in ceramic art.

It is structured as a monthly program, requiring a minimum **commitment of four months**, totaling **80 hours**.

Participants will:

- Explore individual expression through sculptural form
- Develop advanced construction techniques suited to both small and large-scale works
- Experiment with surface treatments that enhance conceptual depth
- Learn firing strategies for complex sculptural forms

Receive personalized feedback and mentoring tailored to their creative goals

This program provides a supportive yet challenging environment for artists seeking to deepen their practice and refine their sculptural voice.

**Private sessions** are available throughout the year and are scheduled by appointment, depending on your production focus, interest, firing range, and preferred timing.
